HARLEQUIN

Office Furniture, Site Services & Interior

WHY CHOOSE HARLEQUIN?

Harlequin office furniture Limited is a family run business and was established in 1991 in Scunthorpe, North Lincolnshire. In the early days, we recognised the need for a budget office furniture supply and in response to this, Harlequin specialised in the supply of good second hand furniture and cost effective products. Harlequin also offered entry level furniture for hire which due to the economy at the time, was particularly attractive to the construction industry. We have progressed over the years to provide a diverse range of quality furniture to suit any budget or requirement. Harlequin soon realised that the Construction, Modular and Portable Building industries required a full range of quality cost effective site services and site, welfare and office furniture.

We consulted with key accounts within this sector and consequently sourced and developed products and reactive lead times that met this demand within a fast paced industry.

Over the years Harlequin has built a wide portfolio of clients from across all sectors. We have designed, planned, project managed and successfully delivered thousands of projects from a single site office through to fully bespoke high profile projects. Our commitment to these business sectors have seen Harlequin grow to into a market leader in this industry.

Harlequin's product portfolio has also grown and is more diverse than ever. Products offered are synonymous with quality and reliability whilst offering exceptional value for money. Harlequin has invested heavily in the products it supplies, and the manufacturing partners we use are carefully selected for their flexibility and loyalty.

Harlequin have their own dedicated delivery team, most have had many years' experience which is passed on down the team, the excellent feedback from our customers demonstrates that we are meeting the required high level of service our customers expect. Likewise our sales staff and sales support teams are there to offer assistance on products, planning and arranging deliveries.

“

The entire team on site were professional and courteous at all times, their work effort was outstanding and they are a true asset to your business. I would not hesitate in using your services again.

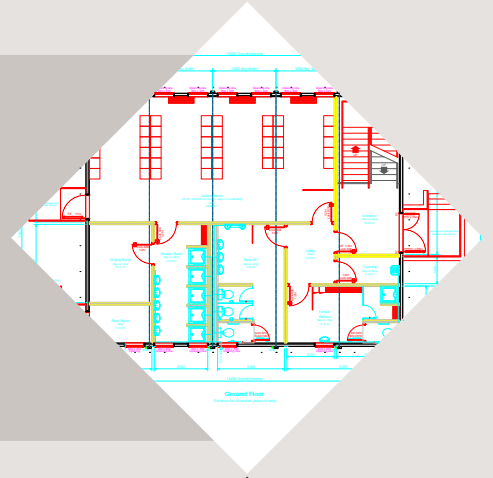

We will continue to use Harlequin on an ongoing basis as our expanding business needs to grow and we'd wholeheartedly recommend Harlequin to other businesses looking for a quality partner to provide a complete office solution service.

”

OUR SERVICES

MEASURING & SPACE PLANNING

Our CAD teams have years of experience within the office furniture industry and can offer professional space plans. We carefully take into account each project and offer solutions whilst still considering current health and safety compliance.

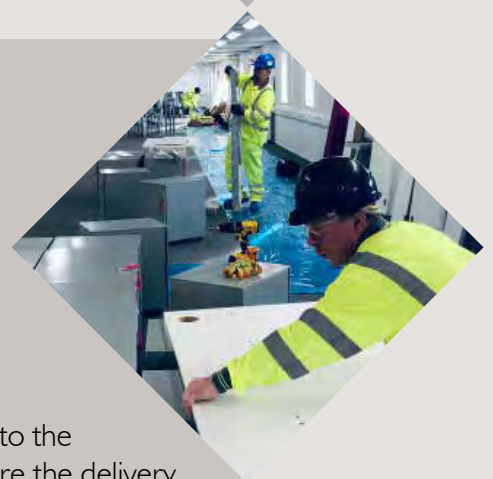

FURNITURE RANGES

We have a comprehensive range of products we can offer Cabin, Construction, Modular Building divisions and any office or welfare space. From office blocks to schools and colleges, we are able to create and supply innovative and contemporary styles, with modern classics to fulfill any customer requirements and budget.

INSTALLATION

Whether it is a small or large installation, our dedicated teams deliver all over the country. We also offer a service to visit the site before the delivery and installation takes place to ensure any unforeseen issues are easily resolved; this has proven to be of paramount importance by helping the client and ourselves save time and money.

Prior to the installation date, an order acknowledgement will be sent out to the purchasing depot. The site contact will then be contacted a day or 2 before the delivery is due to take place, this is so we can go through a pre-site checklist with them.

We kindly ask for the important questions to be answered with as much information as possible to avoid any unforeseen delays or issues once we reach site.

The form is essential and failure to inform us of any potential delays or issues, including site inductions/ specific site requirements etc may result in additional charges.

Risk assessments and method statements will be sent upon request. Direct contact will be made to the end user to ensure all Health & Safety policies are met.

We do not complete floor or wall fixing of lockers and fast food units.

Delivery and installation POA, Pictures shown may vary from actual products.
